The British Columbian.

NEW WESTMINSTER, SATURDAY, APR. 9, 1864.
THE "CHRONICLE" LAMENTATION.

We were very much amused on glancing over a leader in the *Victoria Chronicle* of the 2nd inst. in which our contemporary laments the severance of those ties which formerly existed between these Colonies, and through which the Island Colony was enabled to exercise a control over the affairs of the mainland of which she is now deprived. We say laments, because although the object of the article in question is to convince the people of British Columbia that they ought to lament the change, yet it is very evident where the shoe pinches, it is clear enough that our island neighbors begin to feel their isolation and their loss. What our contemporary means when he says: "While the government of both colonies was under the rule of one man, there were stronger reasons than even friendly or commercial ties, to induce the capitalists and journalists of Victoria to direct their attention to the progress of the sister colony," we are at a loss to comprehend unless, indeed, he alludes to the opportunities which were afforded under the old system of paying their Governor, their mail subsidies and their light-houses &c., out of our revenue. If this be his meaning they have good cause for lamenting the change, but the few "restless politicians" to whom he accords the credit of bringing about this result have abundant cause for self gratulation, and a strong claim upon the gratitude of their fellow colonists.

But we are given to understand that we have sustained a serious loss in this respect; that while formerly we were indebted very largely to the Press of Victoria for making known to the outside world the resources and advantages of British Columbia, even at the sacrifice and neglect of the interests of the island, now their attention is turned from us to their own enormous mineral wealth (?) and we accordingly lose their invaluable services! While we have no desire to undervalue the doubtful service alluded to we beg to assure our island contemporary that we have no fear of sustaining the never-sufficiently-to-be-deplored loss of occupying a prominent place in the Press of Victoria, for the very simple reason that their own little island is so barren of interest that they will at all times be but too glad to give prominence to British Columbian affairs, merely as a matter of business, in order to make their papers readable. Does our contemporary not know that Vancouver Island is hardly known abroad, and that it is indebted to its proximity to British Columbia for any little interest it does possess beyond its own circumscribed precincts? We can assure our contemporary, however, that now we are no longer the subjects of that peculiar influence formerly exercised over us through a Victoria Governor, their is no longer cause for jealous bickering between the two colonies. We shall be most happy to learn that the boasted mineral wealth of the island is no myth, and we can now rejoice in the prosperity of a Colony which is so closely identified in interest with our own, because we know that that prosperity can no longer be at the expense of British Columbia. If, therefore, the change in the construction of the Government of these Colonies should result, as our contemporary predicts, in leading the people of Vancouver Island to devote themselves more than they have hitherto done to the development of their own internal resources we hope they will have no cause to regret the change. Certainly the people of this Colony can have none. We earnestly hope that there will no longer be strife between these two Colonies other than a strife to excel each other in all that is good and praiseworthy. We can congratulate them upon possessing an excellent Governor, and we hope they will have it in their power to return us the compliment before many days have passed.

BENSON'S WATCHES AND CLOCKS.

WATCH AND CLOCK MAKER, BY SPECIAL APPOINTMENT, TO HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No clock on a similar scale could be fitted with more perfect workmanship."

"Some of them are of great beauty; and if the English watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."

Illustrated London News, November 8, 1862.

Watches, adapted for every class, climate and country, wholesale and retail. Chronometer, Duplex, Lever, Horizontal, Vertical, Repeating, Centre Seconds, Keyless, Astronomical, Reversible and Chronograph, from 200 guineas to 3 guineas each.

The British Columbian.

NEW WESTMINSTER, SATURDAY, APR. 9, 1864.

Legislative Council.

This body met on Wednesday, very few of the members, however, being present. No business was transacted and it was adjourned till Wednesday next.

THE SECRET OUT.—The *Colonist* of Tuesday frankly admits, what we have suspected all along, that in refusing, some months ago, to vote the Governor's salary the Island Assembly were actuated by a desire to "precipitate a union with the neighboring Colony," and it also admits that, "That hope of the House is blasted." We told our contemporary nearly a year ago that the separation was an *affaire accomplie*; but he allowed his zeal to override his discretion.

THE GOVERNOR'S RECEPTION.—The public meeting, called by the Mayor in reply to a requisition from the people, was very largely attended. It will be seen by the report of proceedings published elsewhere that a Committee has been appointed to manage the matter. The general sentiment appeared to be that, however much cause we may have for rejoicing at the arrival of a new Governor of our own, it would not be wise, under all the circumstances, to attempt any very great display.

IT WON'T DO.—We have received a communication from "Argus" in reply to the letter from Capt. Irving and Mr. Lee, which we decline to publish, because we consider it too personal and otherwise unsuited to our columns. We do not think the further discussion of this subject would either interest or advantage the public, as it is a matter of very little moment whether the gentlemen above named happen to be admirers of Governor Douglas or not.

RIVER STEAMERS.—The *Reliance* leaves early today with a heavy freight for Yale. The *Lillooet* returned yesterday but brought no news of importance from up-river towns.

HIS EXCELLENCY'S MOVEMENTS.—It is rumored that His Excellency Sir James Douglas will remain until Friday next; but that, we presume, will depend very much upon the arrival of his successor, which may possibly take place early in the week.

ADJOURNED MEETING.—We are requested to remind the public of the adjourned public meeting at sharp 8 o'clock this evening, in the Town Hall, for the purpose of receiving the reports of the Committee appointed on Thursday night.

THE PICNIC. given on Thursday in honor of the birth of the young Prince, is said to have come off tolerably well considering the very unfavorable nature of the weather. There were very few invitations extended to citizens, the affair being chiefly confined to official circles. It appears to us that in celebrating a national event it would have been in better taste to have made the thing more general. Of course, in a community like this it is sometimes difficult to tell where to draw the line; but we believe it is customary, upon similar occasions, to extend invitations to those who attend the levee. That rule was, however, glaringly departed from in this instance.

THE WEATHER during the past week has been extremely variable, and very much rain has fallen. There has not been sufficient heat to bring on vegetation as rapidly as one could wish. The season is, however, remarkably healthy.

ASSIZES

The Spring session of Assize was opened on Wednesday at 11 o'clock. His Honor Judge Begbie on the Bench, with Hon. P. O'Reilly as associate. The following gentlemen were constituted as a Grand Jury: William Armstrong, Foreman; R. Dickinson, J. T. Scott, H. Holbrook, J. A. R. Homer, E. Picht, J. A. Webster, A. H. Manson, William Clarkson, W. J. Armstrong, Robert Hannan, P. Hick and F. G. Richards.

His Honor the Judge informed the Jury that although two prisoners were in Jail for larceny yet on account of the absence of evidence he believed the Crown was unprepared to proceed with the prosecution, there would therefore be no criminal cases to place before them, and he was thus enabled to congratulate them upon being freed from the more disagreeable part of the duty usually devolving upon Grand Jurors.

He would, however, as on previous occasions, call their attention to a class of duty which he deemed important. Individual grievances could at all times find redress in this court; but there are matters sometimes affecting the body politic, such as nuisances, obstructions, &c., which peculiarly fell within the province of Grand Jurors, and which, he trusted, would receive their due attention. Nor should the fact that former representations had passed unnoticed deter them from discharging their duty in this respect now. The Grand Jury retired and the case Barker vs. Ure was called and proceeded with. This was a suit brought by the plaintiff, a well known Caribooite, to recover \$2,500, the value of goods obtained by defendant upon plaintiff's order last Spring.

The defence set up was that the goods were a gift. The evidence of the plaintiff and Mrs. Barker was clear and to the point, although considerable amusement was caused by the replies of the former while undergoing a cross examination. Mrs. Barker gave her evidence in a very straight-forward and businesslike manner, and came out of a very trying cross examination unscathed.

The Jury returned a verdict for the plaintiff for \$2,000. H. P. Walker, Esq., for plaintiff; H. P. P. Crease, Esq., for defendant.

The court was adjourned till Friday to afford a Victoria Barrister who was engaged upon the other two cases to be present.

The court opened yesterday morning, pursuant to adjournment; but not at 10 o'clock as appointed. His Honor the Judge did not make his appearance till half-past 10. As soon as the court was opened Mr. Cary, a Victoria Barrister, addressed the Judge, stating that he had an application to make and desired to know when it would be convenient for the court to receive it. His Honor said that as he did not wish to detain jurors unnecessarily he could not hear the application till after the *non prius* cases were over. Mr. Cary expressed himself satisfied and withdrew.

The first case called was Hamly vs. Dodge. This was an action brought by plaintiff to recover upon a promissory note made by Mr. W. H. Woodcock several years back, and endorsed by the defendant. Considerable discussion arose between the Attorney-General, counsel for plaintiff, and the court, respecting questions of law involved in, or likely to arise out of the case. The matter was finally adjusted and the case gone on with. The jury having retired to consider their verdict, and the only remaining case, Nelson vs. Dodge, having been withdrawn and referred to Mr. J. T. Scott as arbitrator, the Judge asked Mr. Cary what his application was. Mr. Cary rose and said that his application was that, although not upon the Roll of this court, he wished to be treated as if he were in order that he might have an opportunity of vindicating his character against certain aspersions arising out of remarks made by His Honor in court at Williams Lake, viz., charging him with having received a percentage of 10 per cent. upon a case in which he was retained. The Judge explained that although his remarks upon that occasion were so reported in the papers as to lead to the conclusion that they were addressed to him (Mr. Cary), personally, yet they were not so addressed, but merely to the question of the practice, abstractly considered. Mr. Cary said the remarks were applied to himself personally, and that no mere technical question about the application should now be allowed to prevent him from having an opportunity of clearing his character of allegations which if unfounded were ruinous to his position and if true quite unfitted him for it. The Judge repeated that his remarks at Williams Creek were not necessarily personal unless he (Mr. Cary) felt that he was guilty of the practice to which they alluded. He could not consent to reopen the question in its present form nor had he the jurisdiction to do so if he would. Mr. Cary said he would be obliged to vindicate his character by taking proceedings against the maker of the affidavit, a course he was sorry to be compelled to adopt after which he sat down very much affected. Mr. Wood, a Victoria Barrister, remarked that a very practical way was open to Mr. Cary, viz., to apply now to be admitted to practise in the court when these imputations against his character could be considered. Mr. Walker, Barrister of this city, said it was very strange that if Mr. Cary was so very solicitous to vindicate his character he should not have appeared in this court on 16th Nov. last, in compliance with the order of the court. A considerable amount of discussion, for which we have not room, was indulged in and in course of which Mr. Cary made use of pretty strong language to the court. His Honor the Judge, however, cut the unpleasant matter short by dismissing the court. It is proper we should state that in the explanation given respecting the remarks made at Williams Creek, His Honor the Judge was supported by those members of the Bar who were present on that occasion.

The Jury in the case Hamly vs. Dodge returned a verdict for the plaintiff in the full amount claimed with interest. Counsel for plaintiff, H. P. P. Crease, Esq.; for defendant, — Wood, Esq.

Address from the Fire Department.

NEW WESTMINSTER, April, 1864.

To His Excellency Sir James Douglas, K. C. B., Governor and Commander in Chief of the Colony of British Columbia and its dependencies &c. &c. &c.

Sir,—We the enrolled members of the New Westminster Fire Department venture most respectfully to approach your Excellency on the eve of your departure from the colony, to convey to you our gratitude for the valuable aid you have always cheerfully rendered to the Department during your administration.

In communities of varied nationalities with a crude and sparse population, political differences will occur and exist; but with these differences this department has nothing to do. We are conscious that to your Excellency we are indebted for the present means of our efficiency; for a fostering care over several years, that places the Hyack Company in the enviable position it now occupies with similar organizations in the neighboring Colony.

On your retirement into private life your Excellency will carry with you the esteem and regard of the members of this department, who most sincerely wish that you may be spared many years to enjoy the fruits of your arduous labors.

We are your Excellency's most obedient servants.

(Signed) F. G. RICHARDS, Chief Engineer Fire Department. J. T. SCOTT, Captain Hyack Co. G. C. CLARKSON, Secretary.

We have received the following from an up country correspondent, and we can vouch for the truth of the story: A well known butcher in the upper country last season presented a *venable* gentleman with an ox's liver, which was very thickly covered; some two days after the donor in traveling down the country stopped at the *venable* gentleman's house for dinner, and after discussing the meal, which consisted in greater part of said liver, asked what was the damage; the host said one dollar, and a quarter, but as the butcher was tendering the money the host said Stay, you have had fresh meat; that will be four bits more.—"Florent Venables."—*Scorpion*.

LOUIS NAPOLEON'S SON.—The son of the present Emperor of France has been, until within a few months, almost exclusively under the care of an English governess, who was allowed to exercise upon his mind the influence she thought best, in religious as well as secular matters, and she is said to have taught him that it is a sin to desecrate the Sabbath, so that he says, when he comes to be Emperor, it shall be observed quite differently. His tutor is a man of obscure birth, and selected entirely on account of his intellectual and moral fitness for the position. Every University in the country was applied to for information, and when a great number had been recommended, the one was chosen who possessed in the most eminent degree the qualities required. One stipulation was, that he should not be a married man, though we do not know why, unless that he would not be likely to devote so much time to his charge. He is therefore a single man, but the only support of a widowed mother, and receives \$1,600 a year. The Prince is a pretty boy, and when we see him in the carriage with his tutor, he is always chattering like a magpie. Of course, he is taught everything within his capacity to learn, and already licks five or six languages, and manages a horse like a cavalier.—*Exchange*.

Postal money orders can now be drawn in this country on 278 towns in Canada, 70 in Victoria, 46 in the Cape of Good Hope, 41 in New South Wales, 40 in South Australia, West Coast of Africa, and British Guiana; and 1 each in Nova Scotia, Prince Edward Island, Jamaica, Barbadoes, Antigua, and Tobago.—*Lon. Ill. News*.

THACKERAY'S LAST WORK.—Charles Dickens, writing about Mr. Thackeray, in the February number of the *Cornhill Magazine*, says:—"On the table before me there lies all that he had written of his latest and last story. That it would be very sad to any one—that it is inexpressibly so to a writer—in its evidences of matured designs never to be accomplished, of intentions begun to be executed and now destined never to be completed, of careful preparation for long roads of thought, that he was never to reach, will be readily believed. The pain, however, that I have felt in perusing it has not been deeper than the conviction that he was in the healthiest vigour of his powers when he wrought on his last labour. In respect of earnest feeling, far-seeing purpose, character, incident, and certain loving picturesqueness blending the whole, I believe it to be the best of all his works. That he fully meant it to be so, that he had become strongly attached to it, and that he bestowed great pains upon it, I trace in almost every page. It contains one picture which must have cost him extreme distress, and which is a masterpiece. There are two children in it, touched with a hand as loving and tender as ever father caressed his little child with. There is some young love as pure, innocent, and pretty as the truth. And it is very remarkable that, by reason of the simple construction of the story, more than one main incident usually belonging to the end of such fiction is anticipated in the beginning; and thus there is an approach to completeness in the fragment, as to the satisfaction of the reader's mind concerning the most interesting persons, which could hardly have been attained if the writer's breaking-off had been foreseen. The last line he wrote and the last proof he corrected are among these papers, through which I have so sorrowfully made my way. The condition of the little pages of manuscript, where death stopped his hand, shows that he had carried them about, and often taken out of his pocket here and there for patient revision and interlineation. The last words he corrected in print were "And my heart throbbled with an exquisite bliss." God grant that on that Christmas Eve, when he laid his head back on his pillow, and threw up his arms, as he had been wont to do when very weary, some consciousness of duty done and Christian hope throughout life humbly cherished, may have caused his own heart so to throb when he passed away to his Redeemer's rest!"

PLEASE EVERYBODY.—Editors, as well as others, should not delude themselves with the idea that they can please everybody. Who ever saw anybody that was worth anything that had nobody to find fault with him? You would have to do evil in many cases to please the evils; some to gratify their pride; indulge the selfish; submit to the tyrannical; be a tool for the ambitious, and be careful not to have anything as good as those who desire to have everything superior to their neighbors. If you are a public man, should you be diligent, you must expect to have many secretly dislike you and talk against you for your success, and if you accomplish little, though many show themselves friendly, it often leaks out that some who appear pleasant, do this because they do not fear your rivalry; they may smile upon you outwardly, yet inwardly entertain contempt for your insufficiency. Always do that which is right; be diligent, do the most you can, pay no regard to fault-finders, and you will find as many friends as any sensible man may desire.

A SUCCESSFUL NOVA SCOTIAN.—A few years ago a young man named George Oulton, living at Fraser's Mountain, in the county of Pictou, left his native Province to seek his fortune among the placers of California. He finally located himself in the city of Sacramento, where he has won his way to honour and distinction. In October last he was elected, by a majority of 20,000 votes, to the office of Comptroller of the State, an office second only in importance, dignity and emolument, to that of Governor; and we are informed that his friends intend to nominate him for the latter position, next October, with every present prospect of success. Mr. Oulton's friends in the neighbourhood of New Glasgow, and in Pictou, where we believe his family now reside, must be gratified to learn of the young man's successful career in the land of his adoption.—*Pictou Chronicle*.

On Sunday the Wesleyans of the London district commenced the celebration of the jubilee of their Foreign Missionary Society. The sums already given or promised to the jubilee fund have reached £105,000, and the committee are confident that not less than £150,000 will ultimately be raised. Among objects which will be aided out of the fund are the provision of an institution for the special training and preparation of candidates for the missionary ministry; the training and employment of a considerable number of native agents in Africa; the commencement of institutions for training candidates in theological and biblical knowledge in Germany, France, and Italy; the building of a chapel to the late Mr. Wesley's coadjutor, the Rev. J. Fletcher, at his native town of Lausanne; the sending of fifty additional missionaries to India and China, chiefly in the Mysore territory and the valley of the River Yang-tze; and the providing more fully for disabled missionaries' widows and orphans.—*Ill. THE SUFFERER'S BEST FRIEND.
HOLLOWAY'S PILLS.
All Disorders affecting the Liver, Stomach and Bowels.

These Pills can be confidently recommended as the most simple and certain remedy for indigestion, flatulency, acidity, heartburn, colic, constipation, and all the many maladies resulting from disordered stomach or bowels. In all diseases it is of primary importance to set the stomach right. These Pills are purifiers, alteratives, and strengtheners of the stomach. They may be taken under any circumstances. Though powerfully tonic, and satisfactorily aperient, they are mild in their operation, and beneficial to the whole system.

Weakness and Debility, Nervous Irritability.
The wholesome effect exercised by these admirable Pills over the blood and fluids generally is like a charm in dispelling low spirits, and restoring cheerfulness. Their general aperient qualities will fit them for a domestic medicine, particularly for females of all ages and periods of life. They never betray any disagreeable irritating qualities; they quickly eject all impurities from the system, and regulate every function of the body, giving wonderful tone and energy to weak and debilitated persons, while they brace and strengthen the nervous system in a most extraordinary manner.

To Regain Health, Strength and Vigour.
Whenever persons find themselves in that state termed a "little out of health," and there are so many causes at work to shorten life, it is necessary that Holloway's Pills, the finest purifier of the blood ever known, should be at once taken, as they not only rid both solids and fluids of all morbid matters, but regulate all disordered actions, and strengthen the frame in a most extraordinary manner.

Old Coughs, Colds and Asthmatical Affections.
These Pills, assisted in their action by rubbing Holloway's Ointment very effectively twice a day upon the throat and chest, and keeping those parts covered with the preparation, will be found the most effectual remedy for asthma, coughs, colds, bronchitis, and influenza. They soothe the irritated air-tubes, and assist in dislodging the phlegm which stops up the air-passages. This treatment has proved wonderfully efficient in not only curing old settled colds, but asthma of many years standing, and even when patients who were in so bad a state as not to be able to lie down on their beds lest they be choked with phlegm.

Derangement and Distention of the Bowels, Flatulency, Diarrhoea and Dysentery.
Any symptoms of the above complaints should be immediately met by appropriate doses of these Pills, according to the printed directions: delay may be followed by disastrous consequences. These Pills are a certain remedy for all the ailments of the alimentary canal, they secure the thorough digestion of the food; and act most kindly on the stomach, liver, bowels and kidneys. As a household medicine they are unrivalled, and should always be at hand.

Very Important, of Costiveness Beware.
Rarely but little notice is taken of costiveness, yet at certain periods, it is a sure sign that danger is near. All who are seized with apoplexy and paralysis, have previously suffered from costiveness. In the former case the blood flows to the head, a small vein is ruptured on the brain, and we know the rest. Let wives consider their husbands, and husbands their wives, never to go to bed a second night, if the bowels have not been properly moved during the day, particularly if they feel heavy and drowsy. A few gentle doses of these fine Pills will regulate the circulation of the blood, and all dangerous symptoms.

Holloway's Pills are the best remedy known in the world for the following diseases:—
Ague, Female Irregularities, Retention of Urine, Scrophulous, or King's Evil, Sore Throats, Stone and Gravel, Secondary Symptoms, Tic Douloureux, Tumours, Ulcers, Venereal Affections, Worms of all kinds, Weakness, from whatever cause, &c., &c.
Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—Is. 1jd., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Box.

ALL CURES MADE EASY!!
HOLLOWAY'S OINTMENT.
Bad Legs, Ulcerous Sores, Bad Breasts and Old Wounds.

No description of wound, sore, or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance when this medicine is applied; sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflammation.
These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighbouring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage; and most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

Rheumatism, Gout & Neuralgia.
Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

Eruptions, Scald Head, Ringworm & other Skin Diseases.
After fomentation with warm water, utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach, consequently, in many cases, time is required to purify the blood, which will be effected by a judicious use of the Pills. The general health will be readily improved, although the eruption may be driven out more freely than before, and which should not be promoted; perseverance is necessary.

Sore Throats, Diphtheria, Quinsy, Mumps & all other Derangements of the Throat.
On the appearance of any of these maladies the Ointment should be well rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat: this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions.

Scrophulous or King's Evil and Swelling of the Glands.
This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action at purifying the blood and strengthening the system renders them more suitable than any other remedy for all complaints of a scrophulous nature. As the blood is impure the liver, stomach and bowels, being much deranged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:—
Bad Legs, Chapped Hands, Scalds, Sore Nipples, Stiff Joints, Sore Throats, Skin Diseases, Scurvy, Sore-heads, Ulcers, Tumors, Wounds, Yaws, Rheumatism.
Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—Is. 1jd., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.
* * * There is a considerable saving by taking the larger sizes.
N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. au15
